**AMPLEXUS**

by Tine Bay Lührssen (DK/DE)

To personer udveklser vand ved hjælp af to forskellige beholdere. Vandet er her meget mere end kun vand. Det handler om en berøring, en kommunikation, mellem to instanser. Alt efter indsatsen bliver vandet bevaret eller går tabt.

Two persons pouring water using their bins. The water is not just the fluid as we know it, it's a way of contact and communication between two units. Depending on the amount being poured the water will be conserved or spilled.

Film runs from September 12 - october 4 2009
